Skills

Programming Skills

React	HTML	Tailwind	Git	Styled-Components
Typescript	CSS	Storybook	GraphQL	Swagger
Javascript	Saas	Firebase	MySQL	Supabase
Nextjs	Redux	Insomnia	Postman	Bootstrap

Design Skills

Figma	Usability Testing	Persona
User Interface Design	Wireframing	Information Architecture
UX Research	Prototyping	Flow Diagram
User-Centered Design	Competitor Analysis	Journey Map
Colour	Typography	Mockup

Experience

Ariana Suisse Sa / Frontend Developer & UI/UX Designer

JUNE 2022 - JUNE 2023, SWITZERLAND (Remote)

- Rapidly adapted to unfamiliar codebases, excelling in debugging to significantly reduce critical issues.
- Working closely with PR reviews and pair programming to ensure high code quality, resulting in hours saved in daily meetings.
- Successfully introduced new features to diverse client codebases, quickly adapting to unique business logic and coding conventions.
- Acquired new skills rapidly, including learning Contentstack and implementing A/B tests resulting in a 30% increase in user enrollment.
- As a UI/UX designer, I designed two compelling landing pages and a dashboard based on user-centered design principles. Addressed client requests with agile feature design while maintaining design consistency.

Freelance / Frontend Developer

APRIL 2022- MAY 2022, TURKEY

- Developed React frontend for factory data entry and tracking, significantly reducing data access time for 200+ users.
- Played a key role in technical decision-making on database selection, optimizing for user traffic and data storage, saving approximately 15% in operational costs
- Maintained clean, efficient code using atomic design and conventional commits, reducing code review cycles.
- Enhanced code quality with custom React hooks, resulting in a significant increase in code reusability.
- Worked with a Kanban project management technique, ensuring on-time task completion and efficient collaboration with team members.

Brock University / Research Assistant

SEPTEMBER 2021 - JANUARY 2022, CANADA (Remote)

- Conducted qualitative research on digital technologies, society, and power, reviewing and summarizing key points from over 150 recent publications.
- Demonstrated proficiency in identifying relevant research, significantly contributing to improved research quality and efficiency with annotated bibliography.

Education

Brock University | Interdisciplinary Humanities / Phd

2021 - 2022, CANADA (Remote)

- Awarded Brock University Scholarship and completed three graduate courses in Digital Humanities major.
- Opted not to complete the PhD program.

Hacettepe University | Political Science / Master of Arts

2015- 2019, TURKEY

- Member of Political Theory for Society
- Graduated as honor student with 4.0 GPA

Anadolu University | Sociology / Bachelor of Arts

2013- 2018, TURKEY

Istanbul University | Theater / Bachelor of Arts

2011- 2015, TURKEY

Certificates

UI/UX Design Bootcamp | Techcareer • 2023

Mobile Design | Interaction Design Foundation • 2023

User Experience: The Beginner's Guide | Interaction Design Foundation • 2023

Akbank Full-Stack Web Development Bootcamp | Patika.dev • 2022

Building Interactive Javascript Websites | Codecademy • 2022

Intermediate Javascript | Hackerrank • 2022

Projects

PayBud Mobile App | UI/UX Case Study

Figma | Persona | User Flow

Crafted a mobile app within a challenging 2-week timeframe, empowering users to effortlessly send and request money among friends for digital payments.

Lumea Redesign | UI/UX Case Study

Figma | Usability Testing | Persona

Enhanced user experience by addressing issues like mandatory forms, excessive steps, and gendered design, ensuring greater user control and satisfaction.

Sparky | UI/UX Design

Landing Page | Dashboard

Created Sparky, a captivating design challenge that harmonized the client's desire for a cartoonish, playful aesthetic in the landing page with a clean and user-friendly dashboard, all while ensuring consistent experience.

Gardeny App | Design & Develop

React | Typescript | Nextjs | GraphQL | Prisma | Supabase | Styled-Components | Storybook

Full-stack web application from design to frontend & backend where users can find the nearest gardener and book an appointment.
